ALLIES MAKING GAINS IN BOTH WEST AND EAST

The Russian Advance Continues in Galicia and Both Stanislau and Lemberg Are in Danger of Capture—Germany Admits the Retirement of the Germans Before the Russian Advance—Both the French and British Made Advances on the Western Front—The Tide of Battle Favors the Italians and They Have Taken More Than 15,000 Austrian Prisoners—Allies Made Successful Attack on Bulgarians North of Salonica.

London, August 11.—North of Basentine Lepetit, and northwest of Peziers, on the Somme front, the British made further progress, London announces.

The Russians are advancing on the Sereth River in Galicia, toward Halicz, one of the outlying defenses of Lemberg. They entered the town of Monasterzyska, northwest of Stanislau, where fighting is still in progress.

The French opened a heavy bombardment of the German positions to the Paris official statement. On the left bank of the Meuse the statement continues, the French took some prisoners in a raid on German trenches. On the right bank of the river there was skirmishing with hand grenades about Thiaumont Wood.

The number of prisoners taken by the Italians since the fall of Gorzyka now exceeds 15,000, according to the correspondent of a Rome newspaper at the front. According to this correspondent the battle continues favorable to the Italians on both wings. In Gorzyka itself, the houses are half destroyed or riddled with bullets.

The German statement today acknowledges that the Austro-German troops at Monasterzyska and at other points in Galicia had been forced to give way to the Russians. Counter attacks brought the engagements to a standstill and a regrouping of the Teutonic forces is now under way.

Allies Attack Bulgarians.

Paris, Aug. 11.—(Bulletin)—An attack was made by the Anglo-French forces on the Bulgarians at Dolran, 40 miles northwest of Saloniki, which resulted in the occupation of the Dolran railroad station and neighboring hill, was reported in a Havas dispatch from Saloniki.

STRIKE DEADLOCK IS HOLDING FIRM

Brotherhoods Still Unwilling to Make Any Concessions—May Appeal to Wilson.

New York, Aug. 11.—After deliberating the greater part of the night, the United States Board of Mediation and Conciliation today was no nearer a solution of the "deadlock" in the dispute between the railroads and the employees. Failure to avert the strike is due, it was reported, to the railroads refusing to grant any concession other than arbitration, while the men persist in their demands for eight hours and time and a half for overtime. A formal request for 24 more hours to deliberate was made today. It is understood if there is no result, then President Wilson will be asked to intervene.

WOULD REDUCE COT- TON RATES TO N. O.

Special Session of Texas Railroad Commission Called to Investigate Rates on Shipments of Cotton.

(By Associated Press.)

Galveston, Texas, Aug. 11.—A special session of the Texas Railroad Commission is being held here today for the purpose of making an exhaustive investigation into cotton rates with a view of reducing the rates on that commodity in Texas in order to meet the rates from Texas points to New Orleans, which at the present are claimed to be as low as those from Texas points to Galveston and other Texas points. Complaint of this alleged condition was made to the commission by the Galveston Chamber of Commerce. The claim is advanced that under the present condition considerable cotton that naturally would find its way to interior points of Texas now is being diverted to New Orleans.

FLEECY STAPLE IS POURING IN

One Hundred and Nine Bales of Cotton Received in Bryan in Past Twenty-four Hours.

That the fall season is right upon us is attested by the fact that the three different warehouses in Bryan have received during the past 24 hours ending at noon today 109 bales of the fleecy staple. In conversation with a local buyer this morning he said every man who can gather a bale is doing so, and that every man who gets a bale brings it in and sells it as quickly as he can. The price that now prevails, 11 cents and better, looks good to the man who has labored through the long hot spring and summer months to raise the crop. With the large yield that now looks assured, if the prices remain good, you can expect prosperity to reign throughout the country for the next several months.

COTTON RECEIPTS.

Following are the cotton receipts in Bryan up to noon today:

Brick warehouse	121

On the same date last year cotton sold on the streets of Bryan for 8½ cents, and cotton seed sold for \$17.00.

On the same date last year there had been 33 bales of cotton received in the city.

FISHERMAN RETURNS HOME.

Jesse Hensarling, the popular grocerman on Main Street, returned last night from a fishing trip on the Navasota River, just below the Ferguson bridge. He has been there with quite a large party of relatives and friends from Brazos and adjoining counties. Space will not permit us to tell his fish story, but if you will call by he has a good one to relate.

ENGLAND NEEDS MORE WAR MONEY

British Chancellor of the Exchequer is Criticized on Grounds of Over-Reliance on Treasury Bills.

London, Aug. 11.—Reginald McKenna, chancellor of the exchequer, was subjected to criticism in the House of Commons Thursday on the ground of over-reliance upon treasury bills, his critics arguing that the large amount of ship bills outstanding constituted a danger and that the government should have issued another war loan.

In his reply the chancellor claimed that Great Britain was able to borrow abroad at much lower terms than any other belligerent power. He estimated the nation's total indebtedness at the end of the present fiscal year to be \$2,440,000,000.

From that amount, he said, the nation was entitled to deduct \$400,000,000 lent to allies and dominions, the sum left being a burden it could well sustain, as it was virtually balanced by the present national income.
